ITALY

VILLA ANTONIA – THE PROPERTY

Set on top of a hill, dominating the surrounding environment, the luxurious Villa Antonia sits on 2 hectares of land. It grants spectacular views with crystal clear waters of Ligurian sea from every window. The property comprises 2 separate buildings with different functions, all surrounded by typical Mediterranean vegetation. Suites Olive is a part of the main building and can host up to 8 guests.

Suites Limoni is an independent small villa and can host up to 4 guests. Both Suites has common relaxing areas such as Tennis court and 12 meters long swimming pool with panoramic view.

Each villa has guest suites, main living area, dining room, a fully equipped professional kitchen, several covered terraces. All the guests can relax in the beautiful park that surrounds Villa Antonia with “terraced” olive tree garden, lemon trees and other typical Mediterranean plants. The pool is surrounded by a large patio on several levels with an alfresco dining area, a wooden burning grill and an outdoor kitchen, making it the ideal place for entertaining families with kids, romantic couples or a group of friends in a rustic, genuine Ligurian atmosphere.

All the guests are welcomed to use the free wi-fi and the parking space within the property.

Of all the charming places in the Riviera, the neighbourhood town Laigueglia is beyond doubt one of the most romantic and picturesque places, with its sandy beaches, narrow streets, majestic Rococo Church and typical Ligurian cuisine restaurants. Infact a Michelin star chef has just arrived in the restaurant next doors to Villa Antonia , where you will try the local vines combined with the most exquisite Ligurian cuisine.
